JED, RUH & DMM station are EU GDP Certified

In order to comply with a variety of Good Distribution Practice Regulation (including EU343/01 and SFDA guidelines) we have developed a Pharma Handling Quality System. Using Master SOP's, Service Level Agreements and Local Operation Procedures, we have can continuously monitor our handling practices and use CAPA to adjust and correct as necessary.

"We are now GDP certified!"

We ensure a continuous improvement to our process, standards and faciity

Saudi Arabian Logistic, GH are now EU GDP Certified

- At Saudi Arabian Logistics we follow strict rules and development strategy to ensure better service for our customers.
- A dedication to EU GDP practice and quality in every aspect of pharma GH service

- ☒ Environment control
- ☒ Elevated facility
- ☒ JED-RUH-DMM

Handling Passive Shipment

At SAL Cargo we know and understand the importance of safe and secure storing for your vital pharmaceutical and life sciences products.

We also know that having an unbroken cool chain is an integral part of the requirements of European Good Distribution Practice (EU GDP).

Active Container Chain

At SAL Cargo we are offering Active container handling with well trained and expertise employee to secure an unbroken cold chain

These sophisticated aircraft unit load devices are designed to maintain a constant temperature from origin to destination. And whether it's the latest in electrically compressor or dry-ice cooled units

Temperature Solutions

Maintain COLD CHAIN Cargo with Thermal Blanket

We Provide cutting edge technologies that keep Pharmaceutical and Perishable shipments in consistent temperature throughout their transport process from Aircraft to warehouse and vice versa.
